1.1.3 Company Information

Company Name	:	Team Precision Public Company Limited
Head office Address	:	198 Moo 13 Dong-khee-Lek Muang Prachinburi 25000
Business type	:	Electronic circuit board manufacturing and assembly
Company registration no	:	0107543000058
Telephone	:	+66 (0) 2577 2350
Website	:	http://www.teampcba.com
Registered capital	:	637,063,385 shares
Common Stock	:	1 Baht per share
Issued and paid-up capital	:	637,063,385 Baht
IR Contract person	:	Ms. Rattana Wongkrajang
Telephone	:	+66 (0) 2577 2350 Ext 1603

1.2 Characteristics of Business

Description of Products

The company conduct a total business solution from designing, Printed Circuit Board Assembly (PCBA) to a complete box build. The company is expertise and flexible in managing production with a high mix low volume type production and a low mix high volume production.

(1) Products and Services

The Company's main business is printed circuit board assembly services and complete box building of electronic products and delivery to customers or consumers in order to increase competition for customers. The Company has wide range of experience assembled various products in various industries as follows,

Industrial Control the Company has manufactured the components of several industrial products such as cooling control products, snowplow control unit, security system, radioactive detector, data logger and POS (Point of sale system) printer.

Telecommunications Wireless networking equipment

Automotive Car radio control, leather upholstery, electronic, sensor system device Intelligent side lighting.

Medical Hearing aids for the unilateral deaf, hearing air sanitizer, handheld health checking device, TENS device (transcutaneous electrical nerve stimulation), cane for Parkinson patient and other health and medical products.

Consumer Wireless Lighting Control System and in home entertainment management remotes, Ballasts for the lighting industry. High Quality Audio

Specialty Products Sound and a translation system in the large conference room and other sound related electronic products.

The Company offers product design development services as an extension of customer's design team by working closely with customer design team to designing complete products for customers. These services will speed up the customer's design process and assure the customer that the finished design is suitable for mass production and optimizing transportation cost. After the design is completed, the company offers a prototype production service to provide a real sample approval for mass production.

The Company consider about the quality and continue to enhance and increase the efficiency of the production process by using various production techniques. This is to enable the Company to deliver world-class quality products at competitive prices in the market to customers.
